

The diagram illustrates three nested rectangular zones on a page. The outermost zone is the 'bleed' area, shown in light blue, with a width of 8.875 and a height of 11.375. Inside it is the 'trim' area, shown in light gray, with a width of 8.375 and a height of 10.875. The innermost zone is the 'safe area', shown in dark gray, with a width of 7.625 and a height of 10.125. White arrows indicate the width of the safe area, while black arrows indicate the width of the trim and bleed areas. The bleed area is also labeled with a note about images extending off the page.

safe area (important text or graphics)

7.625 x 10.125

trim

8.375 x 10.875

bleed

8.875 x 11.375

images you want to go off the page  
need to extend out to this area
